Hello, please find attached the revised draft reuse assessment for the Wilcox Oil Superfund site. The attached draft incorporates comments provided by Katrina and Todd during a call we convened on February 8th to clarify property ownership and if any additional property owners had expressed reuse interest. Please let us know if you have any additional comments or edits on this document.

Note: we can remove the column with property owner names in Table 1 if needed.

We are also working on the site profile / market considerations document that can be used as a redevelopment tool for the commercial areas of the site; we anticipate a draft by March 15.

For reference, I've also attached an updated work plan to show work completed to date.

Thank you, Alisa
